

## Minutes – Board of Trustees Meeting, July 14th, 2020

By way of Conference Call as per DCA guidelines – July 14th, 2020 7:00 PM

In Accordance with the Open Public Meetings Act: Public Notice of this Meeting pursuant to the Open Public Meetings Act has been given by the Board Secretary in the Asbury Park Press – Paper of Record.

Marshall White – President  
Ken Seda – Vice President  
Sharon Hollander  
Jeanmarie Lamme  
Anita Raynes Lepelstat  
Roxanne Martin  
Reverend Juan Angel Monge-Santiago  
Jim Muzikowski  
Aase Marie Schults Hare

Also, in attendance, Valarie Smith (Executive Director), Lorna Hassel (Head of School), Cindy Coughlin (School Business Administrator), David Hespe (Board Attorney), Tom McMahon (Facilities Consultant), David Block (Financial Consultant).

### Salute to the Flag

### Action Agenda:

1. Approval of the Minutes of May 26<sup>th</sup>, 2020

Motion to accept the minutes of May 26<sup>th</sup>, 2020 made by Jeanmarie Lamme  
Second by Aase Hare - Unanimously Approved by the Board

2. Tom McMahon – Update on New Building

3. Marshall White presented on the findings of the Board of Trustees’ Yearly Self Evaluation for the 2019-20 School Year.

The main strengths of the Board as identified by Board Members in the yearly assessment showed that the six areas (Planning, Policy, Student Achievement, Finance, Board Operations, and Board Performance) were rated overall good to commendable.

Three areas that the Board would like to see addressed more aggressively were as follows: Try to expand Tutorial needs thru the after-school program, More programs to help initiate more parental and community involvement, and to get more information and more involved in virtual learning.

4. David Hespe, Esq. outlined Board’s Reorganization Timeline for September 2020

5. Approval of Facilities’ Consulting Contract for the 2020-21 School Year with Tom McMahon

Motion made by Father Juan to approve the facilities contract with Tom McMahon.  
Jim Muzikowski seconded the motion. Unanimously Approved by the Board

6. Approval of the Head of School and School Business Administrator’s yearly contracts (2020-21 School Year).

Motion made by Jim Muzikowski to vote for both contracts (SBA & Head of School) together.

Second by Father Juan. Unanimously Approved by the Board

Motion to approve the contracts of the SBA and Head of School by Jim Muzikowski.

Second by Aase Hare. Unanimously Approved by the Board

7. Valarie Smith Reports on Covid “Reopening Plans” in general and presented 5 amended policies as recommended by the NJ Department of Education and the NJ School Boards Association for the Board to approve in order to move forward with the recovery and reopening plans.

- Transportation Safety – Critical Policy Manual: File Code 3541.33
- Visitors –Critical Policy Manual: File Code 1250
- Operations and Maintenance of Plant –Critical Policy Manual: File Code 3510
- Illness –Critical Policy Manual: File Code 5141.2
- Health Examinations & Immunizations –Critical Policy Manual: File Code 5141.3

Motion made by Jim Muzikowski to vote on all Five Policies.

Second by Aase Hare. Unanimously Approved by the Board

Motion made by Anita Lepelstat to approve of all amended policies as recommended by the NJ DOE and the NJSBA.

Second by Sharon Hollander. Unanimously Approved by the Board

8. Cindy Coughlin presents on Resolution for Auditor for 20-21 school year

*Ocean Academy Charter School  
Board of Trustees Resolution*

*Resolution July 14, 2020*

*Approval for Ocean Academy Charter School to approve Jump Perry & Company LLP*

*Whereas there exists a need for audit services and to hire an auditor of record;*

*Whereas such services can be provided only by a licensed auditor and Kathryn Perry of the firm Jump, Perry and Company, LLP of Toms River, NJ is so recognized as such an auditor;*

Ocean Academy Charter School  
Board of Trustees

*Whereas the Board of Trustees shall pay Jump, Perry and Company, LLP \$12,500 July 1, 2020 through June 2021*

*Be it resolved by the Ocean Academy Charter School Board of Trustees that:*

- 1. The audit firm of Jump, Perry and Company, LLP of Toms River, NJ is hereby retained to provide audit services.*
- 2. The contract is awarded without competitive bidding as a professional service in accordance with the Public-School Contracts law, NJSA 18A:18A(a)(1) because it is for services performed by persons authorized by law to practice a recognized profession.*
- 3. The anticipated term of this contract is 1 year.*

Motion to approve the resolution to name Jump, Perry, & Company as the Auditors of Record for Ocean Academy Charter School for the 2020-21 School Year made by Anita Lepelstat.

Second made by Father Juan. Unanimously Approved by the Board

9. Public Input – Guest, Tom D’Ambola, interested in learning more about the Charter School
10. New Business – Valarie Smith presented the need to promote Laura Campos from a 10-month employee to employee to a 12-month employee at a salary of \$30,000 (Bilingual Secretarial/Clerical)

Father Juan motioned to promote Laura Campos to a 12-Month employee at a yearly salary of \$30,000.  
Second by Jim Muzikowski. Unanimously Approved by the Board

11. Call for the meeting to Adjourn by Jim Muzikowski, second by Aase Hare.  
Unanimously Approved by the Board.

Newly Adopted Policies set forth below:

## ADOPTED CRITICAL POLICIES AS REQUIRED BY THE NJ DOE Five Policies

### Changes in policies highlighted in yellow

#### NJSBA POLICY SERVICES

FILE CODE: 3541.33

  X   Monitored

  X   Mandated

  X   Other Reasons

\*Policy

---

*\* This is a modified model policy from the Critical Policy Reference Manual (CPRM). It has been revised to include some of the requirements of the NJDOE Guidance: The Road Back: Restart and Recovery. The changes are highlighted below.*

#### TRANSPORTATION SAFETY

The safety and welfare of pupils shall be the first consideration in all matters pertaining to transportation. The board directs the chief school administrator to oversee development of regulations to govern:

- A. Pupil conduct on buses;
- B. Inservice education for bus drivers to include:
  - 1. Management of pupils;
  - 2. Safe driving practices; recognition of hazards;
  - 3. Special concerns in transporting pupils with disabilities;
  - 4. Emergency procedures on the road; accident report;
  - 5. Information on required drug and alcohol testing.

#### Accidents

Forms shall be provided for the immediate reporting of all incidents involving a district-owned or contracted vehicle that include any of the following:

- A. Physical injury to anyone concerned, no matter how minor;
- B. Property damage of any kind, even if the financial loss is negligible;
- C. Failure of any mechanical function of a district-owned or contracted vehicle during operation, even if no injury or damage results.

It shall be the responsibility of the chief school administrator to direct an investigation on the report and to comply with the law. The information gained shall be considered in evaluating personnel performances, and in scheduling inspection of vehicles.

Bus Procedures to Reduce the Spread of Contagion

- A. To the maximum extent practicable, bus drivers will ensure that students and adults comply with appropriate social distancing practices (at least six feet between riders) while on the school bus. Hand sanitizer will be made available at the school bus entrance for use when boarding.
- B. Drivers should practice all safety actions and protocols as indicated for other staff, including hand hygiene and face coverings.
- C. Students must wear face coverings while riding on the bus if social distancing or physical barriers cannot be maintained. Accommodations for students who are unable to wear face coverings should be consistent with the student's IEP. For adults, accommodations shall be consistent with those provided by the school district for staff and others;
- D. Bus drivers will be reminded to implement certain personal hygiene actions (e.g., frequent hand washing) and be afforded the opportunity to do so (such as having sufficient time between routes);
- E. District vehicles will be cleaned and sanitized including seats, rails, and highly touch surfaces before each run.
- F. Contracted transportation providers shall be required to clean and sanitize seats, rails and highly touched surfaces before each run. The district shall collaborate with the contracted service provider to develop these procedures and ensure that they are consistently followed. The contracted service provider shall collaborate with the district in establishing cleaning/sanitation protocols that are consistent with social distancing practices. The contracted service provider shall ensure that employees are fully trained in the implementation of the established protocols:
- G. All personnel responsible for cleaning school buses shall document the cleaning/sanitizing measures taken. Personnel are required to:
  - 1. Demonstrate an understanding of the established protocols that must be taken to properly clean and sanitize the bus; and
  - 2. Provide a certification that, before the route commenced, the required process was completed as required.
- H. These procedures will include a minimum of two stages: cleaning, which removes dirt and germs from surfaces; and disinfecting, which kills germs on surfaces that remain after cleaning.
- I. The procedures will identify sanitizing agents that may be used and will be limited to products included on the U.S. Environmental Protection Agency's list of products that have been shown to be effective against COVID-19;

Training for Interacting with Students with Special Needs

The (*board or board of education contractor that provides student transportation services*) shall administer the New Jersey Department of Education developed training program on the proper procedures for interacting with students with special needs to all school bus drivers and school bus aides that it employs. The training program includes appropriate behavior management; effective communication; use and operation of adaptive equipment; and understanding behaviors that may be related to specific disabilities.

The training program shall be administered prior to that individual operating a school bus or serving as an aide on a school bus.

The (*board or board of education contractor that provides student transportation services*) requires that a school bus driver or school bus aide file a certification with the (*board or board of education contractor that provides student transportation services*) that the individual has completed the training program within five business days of its completion. The (*board or board of education contractor that provides student transportation services*) shall retain a copy of the certification for the duration of the individual's employment and shall forward a copy of the certification to the New Jersey Department of Education.

Ocean Academy Charter School  
Board of Trustees

The parent or guardian of a student with an individualized education plan shall complete the student information card when the individualized education plan is developed or amended for a student who receives transportation services. The student information card, developed by the New Jersey Department of Education, shall include information that should be readily available to a school bus driver and school bus aide for the purpose of promoting proper interaction with a student with special needs.

Upon receiving consent from a student's parent or guardian, a copy of the completed student information card shall be provided to the student's assigned school bus driver and school bus aide.

Drills

Emergency evacuation drills shall be conducted regularly throughout the school year to acquaint the pupil riders thoroughly with emergency situations. An emergency evacuation drill shall be held as soon as possible after the opening day of school and then at least twice a year. Pupils who do not require busing shall participate in a drill as necessary before a field trip. All pupils shall receive evacuation instruction at least once within the school year.

Vehicles and Equipment

All district-owned or contracted vehicles used to transport children shall be maintained in such condition as to provide safe and efficient transportation service with a minimum of delays and disruption due to mechanical or equipment failure.

All district-owned or contracted vehicles used to transport children shall conform to state standards for such vehicles and shall be equipped with all safety devices required by code and statute.

All passengers on buses equipped with seat belts shall wear properly adjusted and fastened seat belts or other child restraint systems at all times while the bus is in operation.

Bus Drivers

Drivers of all Type I and Type II school vehicles used to transport district pupils shall be licensed by the State of New Jersey as bus drivers. They shall comply with all state requirements on physical condition, criminal history clearance, etc. The district shall be in compliance with all drug and alcohol testing requirements of the Omnibus Transportation Employee Testing Act and implementing regulations and shall provide all bus drivers with required information on them (see policy 4219.23 Employee Substance Abuse). Bus drivers are responsible for the safety of pupils entering, riding, and departing their vehicle.

*\* This is a modified model policy from the Critical Policy Reference Manual (CPRM). It has been revised to include some of the requirements of the NJDOE Guidance: The Road Back: Restart and Recovery. The changes are highlighted below.*

VISITORS

The board welcomes visits to school by parents/guardians, board members, other adult residents of the community and interested educators, when they fit into the classroom or school routine. In order for the educational program to continue undisturbed when visitors are present, and to prevent the intrusion of disruptive persons into the schools, the chief school administrator shall devise regulations addressing visitors' access to the schools.

All visitors shall be required to report to the principal's office upon entering the building.

A "visitor" is anyone other than a pupil enrolled in or a staff member employed in the particular school. Visitors may not consult with the teaching staff or pupils during class time without the principal's permission.

Staff members and students are strictly prohibited from propping doors open. Students and staff members shall not open a door for anyone. All persons seeking entry to the building shall be directed to the main entrance.

For the purpose of preventing unauthorized entry into the district buildings, the building principal shall ensure that:

- A. The school's main entrance is clearly marked so that it is easily visible and recognizable;
- B. Exterior doors are locked, and when they are in use for a large entry/exit, staff members, security personnel, law enforcement officers or other representatives of the district are assigned to monitor them;
- C. Entrances are clearly marked with a numerical sequence to allow for specific response by police, fire, and emergency medical services responders;

Ocean Academy Charter School  
Board of Trustees

- D. A limited number of doors are available for access by staff and the staff members shall be informed of which doors they are authorized to use;
- E. Security personnel working in the school building are dressed in uniform.

When the parental rights of a parent have been terminated by a court of appropriate jurisdiction, the legal guardian must inform the school so that the administration may apply appropriate regulations. The principal shall seek confirmation of legal custodianship where necessary.

No one may visit the school during school hours for the purpose of recommending or exhibiting books, maps, etc., to staff. No person shall be allowed to deliver any address or lecture on any subject unless authorized by the chief school administrator or designee.

All visitors to the schools must obey regulations prohibiting smoking and any other regulations designed to ensure orderly operation of the school. All persons violating this policy shall be considered "disorderly persons" and subject to appropriate action.

Visitor Procedures for Contagion Prevention

In order to prevent the spread of disease during pandemic recovery and to protect the health and safety of students and staff against infection, no visitors shall be permitted in the schools until pandemic restrictions are lifted. The principal may admit a visitor if he or she determines that it is necessary. In all such cases, the visitor shall submit to the screening procedure (e.g., temperature and exposure questionnaire) and shall be required to wear a face mask while in the school building. The face mask shall be required in all cases. However, an accommodation may be made where the visitor can demonstrate that wearing a face mask is detrimental to the visitor's health. A child under two years of age shall not be required to wear a face mask.

*\* This is a modified model policy from the Critical Policy Reference Manual (CPRM). It has been revised to include some of the requirements of the NJDOE Guidance: The Road Back: Restart and Recovery. The changes are highlighted below.*

OPERATION AND MAINTENANCE OF PLANT

The board of education is responsible for providing school facilities that are safe from hazards; sanitary; properly equipped, lighted and ventilated; and aesthetically suited to promoting the goals of the district. School buildings and site accommodations shall include provisions for individuals with disabilities pursuant to law and regulations.

The chief school administrator shall ensure the development and enforcement of detailed regulations for the safe and sanitary operation of the buildings and grounds. The regulations shall be reviewed and adopted by the board and provided to all staff annually at the beginning of each school year and when any revisions are formulated.

The chief school administrator and board secretary shall develop a multiyear comprehensive maintenance plan for board approval, to be updated annually.

The district shall ensure barrier free access for all students, staff and visitors to school facilities.

Ventilation Systems

Schools and districts must ensure that their indoor facilities have adequate ventilation, including operational heating, and ventilation systems where appropriate. Recirculated air must have a fresh air component. Open windows must be available if air conditioning is not provided and filter(s) for A/C units must be maintained and changed according to manufacturer recommendations.

Facilities Cleaning Procedures to Reduce the Spread of Contagion

The building principal in consultation with the maintenance supervisor shall develop a procedure for increased, routine cleaning and disinfection. The procedure shall include cleaning/disinfecting schedules, targeted areas to be cleaned, and methods and materials to be used, and shall address:

J. Routinely cleaning and disinfecting surfaces and objects that are frequently touched. This may include cleaning objects/surfaces not ordinarily cleaned daily (e.g., doorknobs, light switches, classroom sink handles, countertops). Examples of frequently touched areas in schools:

1. Classroom desks and chairs;
2. Lunchroom tables and chairs;
3. Door handles and push plates;
4. Handrails;
5. Kitchens and bathrooms;
6. Light switches;
7. Handles on equipment (e.g. athletic equipment);
8. Buttons on vending machines and elevators;
9. Shared telephones;
10. Shared desktops;
11. Shared computer keyboards and mice;
12. Drinking fountains;
13. School bus seats and windows; and
14. Playground equipment.

K. Using all cleaning products in accordance with directions on the label. For disinfection most common EPA-registered household disinfectants should be effective. Whenever possible the list of products that are [EPA-approved for use against the virus that causes COVID-19](#) (available on the EPA's website) shall be used. The manufacturer's instructions for all cleaning and disinfection products (e.g., concentration, application method and contact time, etc.) shall be used.

L. Sanitizing bathrooms daily, or between use as much as possible, using [protocols outlined by the Environmental Protection Agency \(EPA\)](#). Additional considerations regarding bathrooms include:

1. Limiting the number of students who can enter at one in order to avoid crowds;
2. Designating staff members to enforce limited capacity and avoid overcrowding;
3. Installing no-touch foot pedal trash cans, if possible;
4. Propping doors open to avoid touching handles; and
5. Including appropriate signage about the benefits of handwashing.

M. Cleaning and sanitizing drinking fountains and encouraging staff and students to bring their own water to minimize the use and touching of water fountains;

N. Making hand sanitizer available at the school bus entrance for each student to use when boarding. Similarly, students must be required to wear face coverings while riding on the bus if social distancing or physical barriers cannot be maintained;

- O. Maintaining hand-sanitizing stations with alcohol-based hand sanitizers (at least 60% alcohol):
- a. In each classroom (for staff and older children who can safely use hand sanitizer);
  - b. At entrances and exits of buildings;
  - c. Near lunchrooms and toilets.
- P. Supervising children ages 5 and younger when using hand sanitizer;
- Q. For classrooms with existing handwashing facilities, preparing stations with soap, water and alcohol-based hand sanitizers (at least 60% alcohol);
- R. Reminding bus drivers to take certain personal hygiene actions (e.g., frequent hand washing) and affording them the opportunity to do so (such as having sufficient time between routes);
- S. Cleaning and sanitizing district vehicles including seats, rails and any highly touched surfaces before each run.
- T. Requiring contracted transportation providers to clean and sanitize seats, rails and highly touched surfaces touched before each run. The district shall collaborate with the contracted service provider to develop these procedures and ensure that they are consistently followed; a checklist may be developed to ensure compliance. The contracted service provider shall collaborate with the district in establishing cleaning/sanitation protocols that are consistent with social distancing practices. The contracted service provider shall ensure that employees are fully trained in the implementation of the established protocols:
1. All personnel responsible for cleaning school buses shall document the cleaning/sanitizing measures taken. Personnel are required to:
    - a. Demonstrate an understanding of the established protocols that must be taken to properly clean and sanitize the bus; and
    - b. Provide a certification that, before the route commenced, the required was process completed as required.
  2. The procedures will identify sanitizing agents that may be used and will be limited to products included on the U.S. Environmental Protection Agency's list of products that have shown to be effective against COVID-19.
  3. These procedures will likely include two stages: cleaning, which removes dirt and germs from surfaces, and disinfecting, which kills germs on surfaces that remain after cleaning.
- U. Routinely cleaning and disinfecting furniture, recognizing the varying materials used in furniture in each school building;
- V. Providing EPA-registered disposable wipes to teachers and staff so that commonly used surfaces (e.g., keyboards, desks, remote controls) can be wiped down before use;
- W. On a regular basis, ordering and stocking adequate supplies to support cleaning and disinfection practices.
- X. Ensuring that cleaning and disinfection supplies are used and stored correctly and safely. This includes storing products securely away from children, while ensuring appropriate ventilation so students and staff are not exposed to toxins or fumes.

Y. Placing physical barriers, such as plastic flexible screens, in classrooms, school buses, restrooms and other areas where social distancing cannot be maintained.

Z. Cleaning and disinfecting a school building after a person has been identified as COVID-19 positive:

The district may need to implement short-term closure procedures in a school regardless of community spread if an infected person has been in a school building. If this happens, the CDC-recommended procedures shall be followed:

1. Close off areas used by a sick person and do not use before cleaning and disinfection;
2. Wait 24 hours before cleaning and disinfecting. If it is not possible to wait 24 hours, wait as long as possible;
3. Open outside doors and windows to increase air circulation in the area; and
4. Cleaning staff will clean and disinfect all areas (e.g., offices, bathrooms, and common areas) used by the ill persons, focusing especially on frequently touched surfaces.

Additional training shall be provided to the personnel responsible for cleaning and sanitizing school buses and facilities as necessary. Topics may include proper use of cleaning and disinfecting agents, the cleaning schedule for various surfaces, and safety precautions that need to be taken (e.g., ensuring adequate ventilation while cleaning and sanitizing).

#### Safe Drinking Water

The board of education shall assure the availability of potable drinking water through sanitary means in school facilities or upon school grounds in accordance with the Safe Drinking Water Act (N.J.S.A. 58:12A-1 et seq., N.J.A.C. 6A:26-6, and N.J.A.C. 7:10 et seq.). In accordance with law and board policy 3516 Safety, the board shall test all drinking water outlets, make the results publicly available and notify parents/guardians and the New Jersey Department of Education.

The board of education directs the chief school administrator to ensure the development of lead sampling plan with sample collection is consistent with the district's Quality Assurance Project Plan (QAPP) and to ensure that QAPP is signed by the laboratory certified to sample the district's water, the individual responsible for conducting the sampling and is presented to the board for signature.

Within 24-hours after the board has reviewed and verified the final laboratory results of the sampling, the board shall ensure that test results are publicly available at the school facility and on the board's website. If any laboratory results exceed the permissible lead action level, the board shall provide written notification to the parents/guardians of all students attending that facility as well as to the Department of Education. The notice must include measures taken to curtail immediately the use of any drinking water outlet where lead levels exceed the permissible action level, measures taken to ensure that alternate drinking water is available to all students and staff, and information regarding the health effects of lead.

Within six years of the adoption of this policy, and within each six-year period thereafter, the board must test all drinking water outlets; sampling shall be prioritized in facilities previously identified with excessive lead results or identified as high risk in the sampling plan.

Ocean Academy Charter School  
Board of Trustees

Annually, the board must submit to the Department of Education, a statement of assurance that lead testing was completed in accordance with existing Department of Education regulations and that where required, alternate drinking water is available to students and staff.

Integrated Pest Management

The New Jersey School Integrated Pest Management Act of 2002 requires schools to implement a school integrated pest management policy. As per this policy, the board and the chief school administrator shall implement Integrated Pest Management (IPM) procedures to control pests and minimize exposure of children, faculty, and staff to pesticides. \_\_\_\_\_ (insert school name) shall develop and maintain an IPM plan as part of the school's policy.

Integrated Pest Management Procedures in Schools

Implementation of IPM procedures will determine when to control pests and whether to use mechanical, physical, cultural, biological or chemical methods. Applying IPM principles prevents unacceptable levels of pest damage by the most economical means and with the least possible hazard to people, property, and the environment.

Each school shall consider the full range of management options, including no action at all. Non-pesticide pest management methods are to be used whenever possible. The choice of using a pesticide shall be based on a review of all other available options and a determination that these options are not effective or not reasonable. When it is determined that a pesticide must be used, low impact pesticides and methods are preferred and shall be considered for use first.

Development of IPM plans

The school IPM plan is a blueprint of how \_\_\_ (insert school name) will manage pests through IPM methods. The school's IPM plan states the school's goals regarding the management of pests and the use of pesticides. It reflects the school's site-specific needs. The IPM plan shall provide a description of how each component of the school IPM policy will be implemented at the school. The chief school administrator, in collaboration with the school building administrator, shall be responsible for the development of the IPM plan for this school.

IPM Coordinator

The \_\_\_\_\_ (insert as appropriate, either local school board, chief school administrator or principal) shall designate an integrated pest management coordinator, who is responsible for the implementation of the school integrated pest management policy.

#### Education/Training

The school community will be educated about potential pest problems and IPM methods used to achieve the pest management objectives.

The IPM coordinator, other school staff and pesticide applicators involved with implementation of the school IPM policy will be trained in appropriate components of IPM as it pertains to the school environment.

Students, parents/guardians will be provided information on this policy and instructed on how they can contribute to the success of the IPM program.

#### Record Keeping

Records of pesticide use shall be maintained on site to meet the requirements of the state regulatory agency and the school board.

Records shall also include, but are not limited to, pest surveillance data sheets and other non-pesticide pest management methods and practices utilized.

#### Notification/Posting

The SBA (School Business Administrator) of Ocean Academy Charter School is responsible for timely notification to students' parents or guardians and the school staff of pesticide treatments pursuant to the School IPM Act.

#### Re-entry

Re-entry to a pesticide treated area shall conform to the requirements of the School IPM Act.

Pesticide applicators

The IPM coordinator shall ensure that applicators follow state regulations, including licensing requirements and label precautions, and must comply with all components of the School IPM Policy.

Evaluation

Annually, for public schools, the chief school administrator will report to the board on the effectiveness of the IPM plan and make recommendations for improvement as needed. The board directs the chief school administrator to develop regulations/procedures for the implementation of this policy.

*\* This is a modified model policy from the Critical Policy Reference Manual (CPRM). It has been revised to include some of the requirements of the NJDOE Guidance: The Road Back: Restart and Recovery. The changes are highlighted below.*

ILLNESS

When pupils are taken suddenly ill in school, they shall be sent or escorted to the nurse's office. If the nurse is not in the medical office, the pupil shall be sent or taken to the building principal's office. In general, the same procedures that apply to accidents shall apply to sudden pupil illness. The chief school administrator, in cooperation with the medical inspector, shall implement this policy.

Control of Contagious Diseases or Conditions

In order to protect the health of the pupils in our schools, all regulations of the state department of education, the state department of health and the local board of health shall be scrupulously observed, particularly those dealing with contagious or infectious diseases or conditions. Pupils who have been absent because of contagious or infectious diseases or conditions must present a certificate of recovery from a licensed physician or be examined by the medical inspector.

The school nurse shall observe pupils who show evidence of communicable disease and recommend their exclusion to the school principal. Recommendations shall be consistent with reporting requirements on communicable diseases as set forth in the New Jersey Health Code. Such pupils shall be isolated in the nurse's office until a parent/guardian picks them up, and any necessary measures have been taken to prevent spread of the infection. The school nurse, under the direction of the medical inspector, shall instruct all teachers in the symptoms of the most common diseases or conditions at least once a year.

Any student with HIV infection or AIDS or who lives with or is related to someone with HIV or AIDS shall not be excluded from general education, transportation services, extracurricular activities, athletic activities, assigned to home instruction or classified as eligible for special education because of the HIV infection. The school nurse shall recommend the exclusion of any individual with weeping skin lesions that cannot be covered.

In addition to the review of health and safety measures required by law, the school nurse shall individually instruct teachers from whose classrooms a pupil has been excluded in the symptoms of the disease for which the pupil was excluded. Student rights and confidentiality shall be protected in accordance with law. No teacher shall attempt to diagnose any illness of a pupil, but shall refer suspected cases to the nurse immediately.

### Contact Tracing

Contact tracing is the process used to identify those who come into contact with people who have tested positive for many contagious diseases, including COVID-19. Contact tracing is used by health departments to prevent the spread of infectious disease. In general, contact tracing involves identifying people who have an infectious disease (cases) and their contacts (people who may have been exposed) and working with them to interrupt disease transmission. For COVID-19, this includes asking cases to isolate and contacts to quarantine at home voluntarily.

All procedures will adhere to applicable federal and state law and regulations regarding privacy and the confidentiality of records.

Contact tracing for COVID-19 typically involves:

- A. Interviewing people with COVID-19 to identify everyone with whom they had close contact during the time they may have been infectious;
- B. Notifying contacts of their potential exposure;

C. Referring contacts for testing;

D. Monitoring contacts for signs and symptoms of COVID-19; and

E. Connecting contacts with services they might need during the self-quarantine period.

To prevent the further spread of disease, COVID-19 contacts are encouraged to stay home and maintain social distance (at least 6 feet) from others until 14 days after their last exposure to a person with COVID-19. Contacts should monitor themselves by checking their temperature twice daily and watching for symptoms of COVID-19.

The school nurse shall consult with the local health department in the development, review and revision of the district contact tracing policy and procedures. The school nurse and the building principal are the designated staff liaisons responsible for providing notifications and carrying out other components of the board's contact tracing policy.

The school nurse in consultation with the building principal shall establish measures for a system of open communication that allows staff, students, and families to self-report symptoms and/or suspected exposure.

A staff member shall immediately notify the principal and the school nurse when he/she observes symptoms consistent with COVID 19 or becomes aware that an individual who has spent time in a district facility tests positive for COVID-19. The school nurse shall immediately notify local health officials, staff, and families of a confirmed case while maintaining confidentiality when the COVID-19 test is positive.

When the individual exhibits symptoms the school nurse will ensure that the student is taken to the designated isolation area. The nurse will examine the individual and may refer them for testing and treatment. A student exhibiting symptoms of COVID 19 may be required to submit to a COVID 19 test. The school nurse shall require the certification of a physician that the student is contagion free before readmitting a student to school. The nurse shall report all students testing positive for COVID 19 to the health department. The health department shall conduct the contact tracing.

Symptoms of COVID 19 include:

A. A fever of 100° F or greater;

B. Cough;

C. Shortness of breath or difficulty breathing;

D. Chills;

E. Repeated shaking with chills;

Ocean Academy Charter School  
Board of Trustees

F. Muscle pain;

G. Headache;

H. Sore throat;

I. New loss of taste or smell;

J. Fatigue;

K. Congestion or runny nose;

L. Nausea or vomiting;

M. Diarrhea

All school and district administrators, school safety specialists, counselors, and any other staff deemed appropriate by the school and district, shall be provided information regarding the role of contact tracing in keeping school communities safe from the spread of contagious disease.

The school nurse or his or her designee shall make information available and/or conduct virtual information sessions to educate the broader school community on the importance of contact tracing.

### Handling Blood and Body Fluids

The chief school administrator and medical inspector shall develop detailed routine procedures based on New Jersey administrative code and guidelines from the Centers for Disease Control for proper handling of blood and body fluids resulting from illness/accidents in the schools. These procedures shall be disseminated to all district staff and volunteers.

The medical inspector shall report all cases of communicable disease to the local board of health as required by law.

*\* This is a modified model policy from the Critical Policy Reference Manual (CPRM). It has been revised to include some of the requirements of the NJDOE Guidance: The Road Back: Restart and Recovery. The changes are highlighted below.*

HEALTH EXAMINATIONS AND IMMUNIZATIONS

Pupils who enter the district schools for the first time shall have a medical examination conducted at the medical home of the student, and a full report sent to the school. If a student does not have a medical home, the district shall provide this examination at the school physician's office or other appropriately equipped facility. "Medical home" means a health care provider and that provider's practice site chosen by the student's parent/guardian for the provision of health care. As the school physician is also a health care provider, the parent/guardian may request that the school physician provide the medical examination.

A pupil shall be exempted from mandatory immunization if the parent/guardian objects to immunization in a written statement submitted to the principal, signed by the parent/guardian, explaining how the administration of immunizing agents conflicts with the pupil's exercise of bona fide religious tenets or practices. General philosophical or moral objection to immunization shall not be sufficient for an exemption on religious grounds.

Every pupil who enters the district schools for the first time shall present an immunization record as required by law. At the parent/guardian's request, these immunizations may be administered by the school physician.

NOTE: THIS IS PERMISSIVE, NOT REQUIRED.

In order to protect the health of the children and staff in district schools, all regulations of the state department of education, the state department of health and the local board of health shall be scrupulously observed, particularly those dealing with contagious/infectious diseases or conditions. Pupils seeking to enter school who have been identified as having a communicable/infectious disease or condition shall not be enrolled unless they qualify under the above agencies' rules pertaining to periods of incubation, communicability, quarantine, and reporting.

The chief school administrator or his/her designee shall formulate regulations that ensure immunization records are reviewed and updated annually pursuant to N.J.A.C. 8:57-4.1 through 4.16. The chief school administrator shall also

Ocean Academy Charter School  
Board of Trustees

formulate regulations for this policy and for regular pupil health examinations at appropriate grade levels; before participation in sports programs; and for tuberculosis, scoliosis, hearing loss, visual acuity and any other physical examinations required by law. Any health defects revealed by any examination given by the school health services must be reported to the parent/guardian. The board shall review the regulations and adopt those required by law.

Pandemic Reopening and Recovery

A. Screening and Personal Protective Equipment (PPE)

1. Adequate amount of personal protective equipment (PPE) shall be available, accessible, and provided for use by staff and students.
2. School staff and visitors are required to wear face coverings unless doing so would inhibit the individual's health or the individual is under two years of age.
3. Students are strongly encouraged to wear face coverings and are required to do so when social distancing cannot be maintained, unless doing so would inhibit the student's health.
4. Staff and students shall be screened for entry into the school building;
5. The principal or his or her designee shall develop a school entry plan that includes:
  - a. Staff assigned to do the screening;
  - b. Designated entrances that will be used to admit students;
  - c. The assignment of classes and grades to designated entrances and/or designated entrance times;
6. Staff must visually check students for symptoms upon arrival (which may include temperature checks) and/or confirm with families that students are free of COVID-19 symptoms;
7. Health checks must be conducted safely and respectfully, and in accordance with any applicable privacy laws and regulations;
8. Results must be documented when signs/symptoms of COVID-19 are observed;
9. Screening procedures shall take into account students with disabilities and accommodations that may be needed in the screening process for those students;

B. Procedures for symptomatic staff and students:

1. The school principal or his or her designee shall establish an isolation space;
2. Students and staff with symptoms related to COVID-19 shall be safely and respectfully isolated from others. Students should remain in isolation with continued supervision and care until picked up by an authorized adult;
3. Staff must provide continuous monitoring of symptoms;
4. The [current Communicable Disease Service](#) guidance for illness reporting shall be followed;
5. If a staff member becomes aware that an individual who has spent time in a district facility tests positive for COVID-19, the staff members shall notify the principal and the school nurse. The school nurse shall immediately notify local health officials, staff, and families of a confirmed case while maintaining confidentiality;

C. Preparations for when someone tests positive for COVID-19:

1. The school principal or his or her designee shall establish an isolation space;
2. Students and staff with symptoms related to COVID-19 shall be safely and respectfully taken to the designated isolation space and isolated from others. Students should remain in isolation with continued supervision and care until picked up by an authorized adult;

Ocean Academy Charter School  
Board of Trustees

3. The [current Communicable Disease Service](#) guidance for illness reporting shall be followed;
4. Readmittance to school shall be consistent with [Department of Health guidance and information for schools](#) and Department of Health/Communicable Disease Service's [Quick Reference Guidance on Discontinuation of Transmission-Based Precautions and Home Isolation for Persons Diagnosed with COVID-19](#);
5. Contact tracing shall be initiated including records of groups/cohorts, assigned staff, and daily attendance.

D. Protocols to address a positive case:

Students and employees may be asked to leave or not come into school if they test positive for COVID-19 or exhibit one or more of the symptoms of COVID-19, based on CDC guidance, that is not otherwise explained:

1. A fever of 100° F or greater;
2. Cough;
3. Shortness of breath or difficulty breathing;
4. Chills;
5. Repeated shaking with chills;
6. Muscle pain;
7. Headache;
8. Sore throat;
9. New loss of taste or smell;
10. Fatigue;
11. Congestion or runny nose;
12. Nausea or vomiting;
13. Diarrhea.

Parent/Guardian Notice

In accordance with federal law, the Protection of Pupil Rights Amendment (PPRA), parents/guardians shall be notified annually of the opportunity for the parent/guardian to opt the student out of any non-emergency, invasive physical examination or screening that is:

- A. Required as a condition of attendance;
- B. Administered by the school and scheduled by the school in advance; and
- C. Not necessary to protect the immediate health and safety of the student, or of other students.
